

About us

CESA is a leading import and export logistics company specializing in solar energy. Since our foundation, we have been committed to providing comprehensive and customized solutions to our customers to ensure prompt and efficient delivery of their products anywhere in the world.

At **CESA**, we believe in the importance of renewable energy and are committed to sustainability. We are proud to collaborate with companies that share our vision and values, and we strive to be the best partner for our customers.

Value we deliver

Our success is measured by the success of our clients. We tirelessly work to deliver the greatest possible value in each of our projects.

We guarantee agile processes, with exceptionally low waiting times and high-quality standards, as we offer the best brands in the market. Our personalized approach allows us to adapt to the specific needs of each client and achieve satisfactory results at each stage of the process.

Another cornerstone that sets us apart is our commitment to sustainability. In 2022 alone, we installed solar power equipment capable of producing the equivalent of 6,580 MWh/year. This amount of energy can supply approximately 20,000 homes and avoiding about 1,600 metric tons of CO2 from different fossil fuels.

	Energy placed in 2022 kg CO2/kwh	MWh 6580 TON CO2 Avoided
Natural Gas	0,20	1328
Butane Gas	0,24	1566
Diesel	0,24	1558
LP Gas	0,23	1541
Coal	0,36	2348

Note: 100% consumption of thermal energy assumed.

Services we offer

Our services include:

- **Import and export logistics:** Our expert team will help you observe all import and export regulations and requirements anywhere in the world. We ensure that your products are quickly and efficiently shipped, coordinating all the necessary paperwork and process requirements, from pickup to delivery.
- **Warehousing and distribution:** We offer customized warehousing and distribution services, as well as the guarantee that your products will be available in stock for immediate delivery, in the shortest possible time and at a competitive price.
- **Solar energy related products and services:** Within our range of products, you will find solar panels, backup batteries, inverters, lamps, and everything you need within an electricity system to supply your home or business. In addition to our products, we offer personalized technical advice and solar system design. Our experts are highly trained to help you find the perfect solution for your specific energy needs.

We are passionate about our customers' success and committed to deliver excellent customer service. Make the first move and contact us now. **CESA** puts the power of the sun in your hands.
